(Established 1926)

o

A

NEW TREATMENT

**Without Medicine, Dieting
or Electric Massage**

known as

**E N D O N A S A L
REFLEX THERAPY**

New hope for all sufferers from Head Noises, Deafness,
Nervous and Constitutional Disorders, Asthma, Stomach
Troubles and Rheumatism in all its forms.

**125,000 Cases Already Treated With
Great Success**

Patients crippled or paralysed by Rheumatism have recovered health and strength in less than one week. Sufferers from Asthma for 30 years have been cured after five or six treatments. Sufferers from Deafness and Head Noises need in many cases only three treatments to obtain complete relief. Stomach Trouble from Dyspepsia or Constipation (if no cancer or ulcer) can be cured by four or five treatments of Reflex Therapy.

X-Ray Examination and Consultation Free of Charge

**HARPMAN'S INSTITUTE OF
ENDONASAL REFLEX THERAPY,**

Under Supervision of the Discoverer

**VICTOR HOUSE; 1, BAKER STREET, W.1
(Corner Portman Square.)**

Hours daily from 10 to 6—Saturday 10 to 1.

Phone: Welbeck 7185

Explanation

ENDONASAL REFLEX THERAPY is a therapeutic reflex treatment for the relief of many diseases heretofore considered difficult to cure, the majority of which are listed elsewhere.

Mr. J. Harpman, discoverer of the treatment, is the director of the Busico-Harpman Sanatorium and the Polyclinic Hospital, Buenos Aires, Argentina. There they have administered the treatment since 1926 to more than 70,000 patients. Of this number 80 per cent. have been restored to perfect health, and 20 per cent. have shown remarkable improvement.

The treatment—an internal stimulus caused by touching various nerve zones in the nasal canals—is given without medicine, drugs or massage of any kind, or the use of heat, light or electricity. It is bloodless and painless, and the reaction almost instantaneous. Each treatment requires only a few minutes, and gives a pleasant sensation.

The method of application is the insertion into the nose of small instruments known as the Harpman styluses. The stimulus provoked by the touching of the appropriate nerve centres with these instruments is transmitted to the central nerve system of the body, and there transferred to the organ it affects. This organ then will show a specific activity.

The basis of the treatment is the phenomenon of the reaction of various organs to a stimulus, thereby improving circulation where for some reason it has been defective or disordered.

The simplicity of this treatment eliminates any question of risk to the patient, and those who might hesitate to try something new can be definitely assured that the treatment can in no way cause them any harm.

A WONDERFUL CURE out of thousands

Witnessed by

Brig.-Gen. A. DE LA VOYE, C.B., C.M.G., D.S.O.
and
Lieut.-Col. A. MARTIN, T.D., M.D., B.S.

Mr. G. Bond has been suffering from creeping paralysis for the past seven years.

His complaint was treated by all known methods, without success.

He was introduced to the Harpman's Institute on February 15th, 1932, and by February 29th, 1932, after seven applications of the Endonasal treatment, he was completely cured.

This letter is from a well-known Physician who has watched three hundred patients who were treated by Mr. Harpman's Endonasal Reflex Therapy.

September 15th, 1931.

In the Institute of Endonasal Reflex Therapy and under my supervision were treated Three Hundred patients, suffering from Rheumatism, Arthritis, Gout, Muscular-aches, Lumbago, Neuritis, Paraplegia, Agitant-Paralysis, Sciatica, Asthma, Deafness, Head Noises, Hayfever, Irregular Blood-pressure, Nervous and Stomach troubles.

I therefore am now in a position to state that 98 per cent. of the above patients have regained their complete health and strength through this treatment.

DONAT MIRON,
M.D., L.M.C.C.

For several months I have witnessed hundreds of patients being treated for Asthma, Dyspepsia, Rheumatism, Head Noises, and Paralysis at Harpman's Institute.

In view of the extremely successful results achieved I feel I can confidently recommend Endonasal Reflex Therapy as a treatment for patients who are suffering from functional as distinct from organic disorders.

LIEUT.-COL. A. MARTIN,
T.D., M.D., B.S.

After witnessing several really wonderful cures at your Institute, I feel I should be lacking in my duty if I did not publicly let sufferers from Lumbago, Arthritis, and Muscular Rheumatism know that in your treatment they have a most successful cure.

BRIG.-GEN. A. DE LA VOYE,
C.B., C.M.G., D.S.O.

Opinions of the Press !

EXTRACT FROM THE "STANDARD," MONTREAL, CANADA

5th September, 1931.

. . . miraculous cures have been made of cases classified as hopeless. . . the public are realising also the curative and corrective features of Endonasal Reflex Therapy, for the Institute is a hive of activity from opening to closing time.

EXTRACT FROM THE "MONITOR " (MONTREAL)

21st August, 1931.

We are in the happy position to testify that in nine out of every ten cases the treatment was entirely successful, and we have no doubt that in time many sufferers will acknowledge the Institute of Endonasal Reflex Therapy as the LOURDES of Canada.

EXTRACT FROM "THE DAILY TELEGRAPH"—LONDON

There are grounds for high hopes that a method of treatment which has already proved wonderfully effective abroad will be increasingly adopted in this country.

The method of Endonasal Reflex Therapy has demonstrated its value in a truly sensational manner.

Many who have placed themselves in the hands of Mr. Harpman may be excused for applying the term miracul-

ous to the Endonasal Reflex Therapy method. There is, for instance, the case of a lady of advanced age who for eight years had suffered from bad head noises and, for the last three years of that period, Rheumatism all over. After three treatments she declared herself entirely freed from the distressing head noises, whilst five restored her to complete health—at 77 years of age.

Another lady claims to have been almost completely cured of Rheumatism, which complaint she has endured for forty years, after eight treatments.

Mr. Harpman's first patient in England was a London Specialist whom he cured of head noises and deafness in one ear.

Mr. Harpman has already achieved encouraging success. Now in London, at Baker Street, is the English headquarters, where Mr. Harpman receives all patients personally. No charge is made for the consultation, whilst if treatment is found desirable it is available at fees within the reach of average means. Where it is discovered that, for lack of means, a patient obviously in need of treatment cannot meet the charge, then the fee is dispensed with, for the primary object is to secure results which will demonstrate that there is a method of successfully treating Rheumatism and associated ills without recourse to drugs, spa treatment or dieting.

ANOTHER NEWSPAPER ENDORSEMENT

The following is an extract from one of the most important newspapers of Buenos Aires :—

During the last three years we note that very important newspapers of Buenos Aires such as : “ La Prensa,” “ La Nacion,” “ La Razon,” “ La Critica,” “ El Diario,” have been publishing reports and testimonials of gratitude for Endonasal Reflex Therapy. Nevertheless, we have refrained from expressing our opinion on the subject.

At last, we have decided to secure the collaboration of a very well-known doctor of good standing who has presented his ideas to our public and points out the advantages of this treatment.

For one hour every day, our collaborator has had the opportunity of witnessing Endonasal Reflex Therapy treatments.

Thousands of sick people have undergone this method of cure. The majority of them were sufferers from Asthma, Rheumatism, Paralysis, Deafness, Neuralgia, Poor Circulation of the Blood, Arthritis, Stomach Ailments, Varicose Veins, Organic Weakness, etc. Eighty per cent. of these patients have been completely healed.

We have taken note of the most marvellous cures. Many people who considered themselves incurable, left the clinic in perfect health.

Everybody can submit themselves to this treatment without danger because the application is absolutely harmless.

GERMAN DAILY NEWS,
Buenos Aires.

FROM "LA PRESSE," MONTREAL, JUNE 12TH,
1931

EXTRAORDINARY RESULTS OF ENDONASAL REFLEX THERAPY

This treatment, although recently introduced in Montreal, is already well known in North and in South America, more specially in Buenos Aires, where a vast institute is exclusively dedicated to this method.

Although it is only a few months since this method has been established here, several cases of rheumatism of all kinds, where medicine had failed, have already been completely cured.

Mr. Harpman, to whom this discovery is due, has installed at 1517, Mountain Street, a Clinic, where, each day, numerous patients are treated with marvellous results, as can be seen by the numerous testimonials of satisfaction received.

What characterises this treatment is that it is extremely quick, without the least pain, and that the results are practical and instantaneous.

EXTRACT FROM "NOTTINGHAM GUARDIAN"

A new treatment for rheumatism in all its forms, and for many other complaints, is now being practised in London by a bacteriologist, who has effected tens of thousands of cures at his clinics in *New York*, *Buenos Aires*, and *Montreal*.

The patients who were treated during the demonstration yesterday appeared to suffer no pain. They included an *Enfield lady*, who claimed to have been almost completely cured of rheumatism of *forty years'* standing by eight treatments.

Important

In spite of the fact that thousands of highly intelligent scientific men such as i.e. Ehrlich, Haffkine, Klebs, Loeffler, Bright, Seydenham, Röntgen, Lenard, Crookes, Curie, Pfeiffer, Jenner, Wright, Semple, Metchnikoff, Koch, Pasteur, etc., having done so much for the promotion of good health in mankind, the mortality figure has remained approximately at the same level as in the past.

Hundreds of medicines for the prevention of diseases, such as smallpox, diphtheria, cholera, malaria, yellow fever, etc., which were causing the death of thousands of victims each year, are now being employed ; thousands of medicines, of which the efficacy has been proved, are at the disposal of every physician, but nevertheless, the mortality figure has approximately remained the same as before.

Statistics, from 1800 to 1931 inclusive, show, on an average, the same mortality figure, and the number of ailing people is greater, in proportion, than in the past.

After all that has been accomplished for promoting a condition of good health, we may safely say that the result is nil.

What is the reason ?

The reason is, that 90 per cent. of the sufferers do not avail themselves of the advice of medical advisers, but take recourse to impractical medicines.

Many a sufferer thinks he is able to determine his diagnosis himself.

Would it be possible for a layman to be possessed of the same medical knowledge as a physician who requires at least seven years of study in order to acquire only an adequate theoretical knowledge ?

Has the time not arrived for the better enlightenment of the public ?

Is it not possible to make clear to the public that use of medicines which are suitable for stomach complaints may be detrimental to other organs ?

Is it so difficult to understand that one may be mistaken in the assumption that stomach—kidneys—liver—heart or other organs are out of order, and that one is taking recourse to medicines which will produce a harmful effect ?

Is it not of greater advantage, before having recourse to wrong medical preparations, to consult the family doctor ?

The Author of this pamphlet advises every reader : first of all consult your doctor ; have yourself thoroughly examined and take only what is prescribed by him, and do not allow yourself to be tempted to make use of such medicines as are recommended by some one who does not know what you are suffering from.

A preparation which merely alleviates, is not sufficient. It is necessary to eradicate the cause (germ-origin) of your illness, and this is only known to, and can only be effected by, the man who has had many years of theoretical and practical experience.

o

What is Rheumatism ?

What is its origin ?

How many kinds of Rheumatism exist ?

Are the same medicines suitable for all these kinds of Rheumatism ?

Does the layman know precisely what is the cause of his ailment ?

Can it not be easily comprehended that a careful examination must be made before a mode of treatment should be adopted ? Rheumatism is classified under various groups.

For instance :—

- | | |
|---|---------------------------------|
| (a) Rheumatic Fever
(Acute Rheumatism) | (g) Sciatica |
| (b) Sub Acute Rheumatism | (h) Neuritis |
| (c) Peliosis Rheumatism | (i) Rheumatoid Arthritis |
| (d) Chorea | (j) Osteo Arthritis |
| (e) Muscular Rheumatism. | (k) Spondylitis |
| (f) Lumbago | (l) Gout |
| | (m) C h r o n i c Joint-changes |

Let us put the question once more ! Does one single medicine exist which removes the cause of all these groups ?

The causes of the above-mentioned ailments are numerous.

Before proceeding to endeavour to effect a cure, it is necessary to ascertain first of all : under which group or variety of rheumatism is the affection from which the patient is suffering to be classified ?

What is the cause ?

When both these questions have been answered, it is the business of the physician to remove the cause and a cure will result.

No other method of treatment has ever obtained the same results as Reflex Therapy has accomplished.

This method of treatment has proved that in nine of every ten cases a total recovery has been attained.

Testimonials, extracts from newspapers and reports of doctors, published in the following pages, afford the reader an idea of what Harpman's Endonasal Reflex Therapy has accomplished during the last six years for those affected.

CONSTIPATION

OUR Institution possesses a clinical report of every patient, not less than 135,000 in total.

Among these are sufferers from : Rheumatism, Indigestion, Nervous Debility, Neuritis, Neurasthenia, Paralysis, High Blood-Pressure, Asthma, Deafness, Insomnia, etc., and not less than 70 per cent. of these sufferers are constipated.

Is it not permissible to state, in consequence thereof, that

CONSTIPATION

is one of the most frequently occurring causes of the above-named ailments ?

Many sufferers from constipation take recourse to purgatives and laxatives, which effect a bowel movement, this, however, being artificial.

It is essential that this action should occur in a normal manner, without the aid of artificial means.

Endonasal Reflex Therapy has effected a complete cure in 98 per cent. of the cases.

An examination as to the cause of your constipation will be made in our Institute, free of any charge.

Indigestion—Dyspepia

IF neither Tuberculosis, Cancer nor Ulcers are the cause

ENDONASAL REFLEX THERAPY
will be able to cure you.

Examination is entirely free of charge, and takes place every day from 10 to 1 and from 2 to 6.

To know the exact cause why you are suffering or what you are suffering from will assist you in obtaining a complete cure.

If Endonasal Reflex Therapy is not suitable for your case, you will be told so, and another way will be indicated to you.

NERVOUSNESS,
WEAKNESS,
LOSS OF APPETITE
and
INSOMNIA

are kindred ailments.

What medicines during many years have not been able to accomplish, has been accomplished by

ENDONASAL REFLEX THERAPY.

It is possible to effect a complete cure in the above-mentioned complaints (or affections) in less than a week, provided the origin is not to be found in an ailment for which the treatment of

REFLEX THERAPY
is not indicated.

Before accepting patients for treatment, a thorough examination is made, which entails no expense whatever.

Are You Deaf?

Do you know the cause of your affliction ?

If not, be examined by a specialist ; have the cause of your ailment ascertained and most probably,

ENDONASAL REFLEX THERAPY

will be able to effect a cure, or improve your hearing.

Not every variety of deafness can be cured, but in any case, however, head noises are curable.

In eighty of the hundred cases deafness, too, is curable, and if not completely, a considerable improvement is nearly always obtained.

Be examined, this costs you nothing. If an improvement in your condition cannot be accomplished, you will be told so and no expenses are entailed thereby.

Clinical Reports on the following pages will convince you.

ASTHMA

THIS disease consists of a spasmodic contraction of the smaller tubes. This is due to some deranged condition of the nervous system, affecting, either directly or by reflex action, the nerves supplying the muscular fibres lining the Bronchi, and regulating their calibre.

Asthma is to be regarded as essentially a nervous ailment, but very frequently associated with some form of chest complaint, and called Bronchial Asthma. In the last case, when the Bronchitis is cured, Asthma disappears.

If it is not a Cardiac Asthma, **Endonasal Reflex Therapy** gives in 100 per cent. good results. Every patient suffering from Asthma will be examined in our Institute free of charge. Hundreds of patients suffering for more than 30 years have been completely cured, and some of our clinical reports and testimonials are published on other pages. Originals are on view at our Institute.

THOUSANDS of testimonials which testify to the complete success of Harpman's Endonasal Reflex Therapy, and to convince sceptical sufferers, have been received from patients treated in Great Britain and London.

Many patients have urged us to give their testimonials the fullest publicity. Every communication is regarded in the strictest confidence. Not a single letter is printed, and not a single name is quoted, without the consent of the patient.

ARTHRITIS

Miss E. B.—Age 72. Sufferer since 1920 from Arthritis. After five treatments pain and stiffness disappeared completely.

RHEUMATOID ARTHRITIS AND CONSTIPATION

Captain B. C. R.—Age 49. Rheumatoid Arthritis and Constipation. Duration of disease about 10 years. Recovered health and strength after six treatments.

NEURASTHENIA AND SLEEPLESSNESS

Mr. D. C.—Age 48. Suffering from Neurasthenia (following Influenza) and Sleeplessness. After the first treatment he slept normally, and only five more applications were necessary to restore him to health.

PARALYSIS—NERVOUSNESS

Lt.-Col. J. D. E.—Beginning of Paralysis in both legs and sufferer of Nervous Disorders. After a few treatments of Endonasal Reflex Therapy, feels normal.

HEAD NOISES AND RHEUMATISM

Miss E. P.—Age 77 years. Suffered for eight years from Head Noises, and in the last three years from Rheumatism all over. After the third treatment Head Noises disappeared, and the fifth treatment restored her to normal health.

DIZZINESS—SLEEPLESSNESS

Miss V. R.—79 years old. Sufferer from Dizziness, Rheumatism (Neuritis) and Sleeplessness. Six treatments relieved her completely of her suffering.

NEURASTHENIA—STOMACH TROUBLE— CONSTIPATION

Mr. A. A. R.—Sufferer from Neurasthenia, Stomach Disorders and Constipation. The first two treatments relieved him of the Stomach trouble. After the fifth treatment no more Constipation, he slept normally, and was completely cured.

SHORTNESS OF BREATH

Mr. P. R.—Age 25. Sufferer from Chest pains and shortness of breath. He was given only four treatments, and is now completely free from pain and is enjoying perfect health.

RHEUMATISM

Mr. E. J. W.—Sufferer from Rheumatoid pains all over for 12 years. Four treatments were sufficient to restore him to health.

DEAFNESS—HEAD NOISES—NERVOUSNESS

Mr. J. S.—Sufferer from Deafness, Head Noises and Nervous Disorders. After the second treatment Head Noises disappeared, and his hearing improved. No more than six treatments were necessary for him to recover his complete health.

ASTHMA—HEAD NOISES

Mr. J. Dunn—Sufferer from Asthma and Head Noises for 6 years. Both diseases were cured after six treatments.

DEAFNESS—RHEUMATISM

Mr. C. Craig—Sufferer from Deafness and Rheumatism all over for 10 years. He was cured completely after seven treatments.

ASTHMA—CONSTIPATION

Mr. J. S. Cockvill—Sufferer from Rheumatism, Asthma and Constipation for 4 years. Four treatments were necessary for him to recover his health and strength.

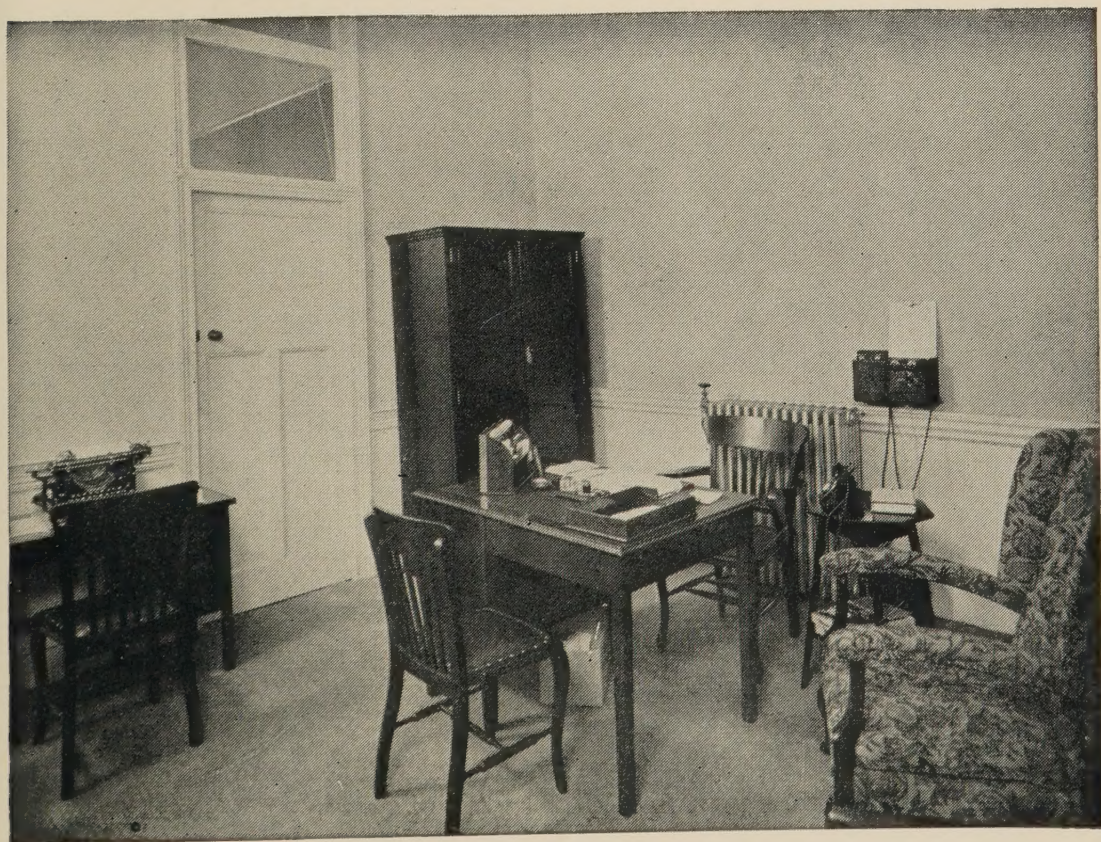

Reception Room

Treatment Room

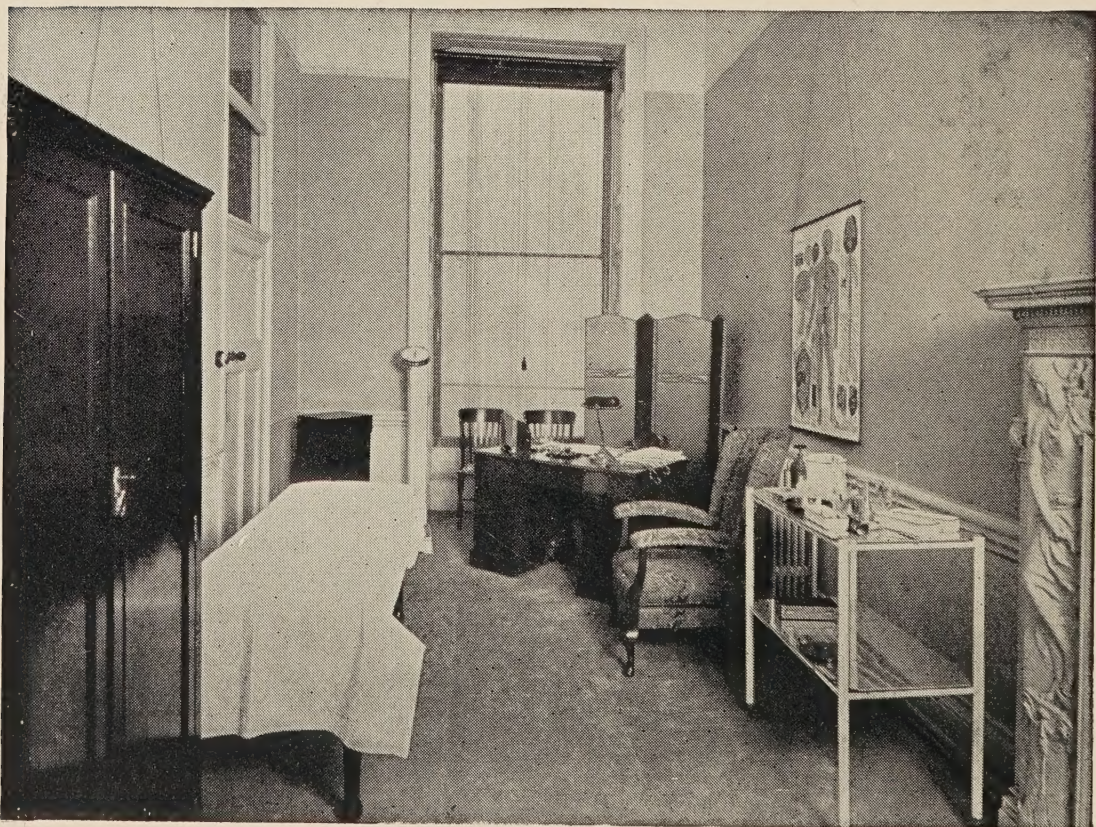

Waiting Room

Consultation Room A

Consultation Room B

Consultation Room C

DEAFNESS—HEAD NOISES

Mr. C. J. Hawker—Sufferer from Deafness and Head Noises for 6 years. Six treatments with intervals of two days restored him.

DEAFNESS—HEAD NOISES—CATARRH

Mr. A. J. Donaldson—71 years of age. Sufferer from Deafness, Head Noises and Catarrh for 7 years. His last two complaints are completely cured, and his hearing is greatly improved.

RHEUMATOID ARTHRITIS

Mrs. H. Williams—Suffering from Rheumatoid Arthritis for 12 years. Pains and Stiffness disappeared completely after six treatments.

STOMACH TROUBLE—HAEMORRHOIDS

Mr. G. T.—Sufferer from Stomach trouble and Haemorrhoids for 5 years. A complete cure was obtained after six treatments.

NEURASTHENIA

Miss M. P.—27 years. Suffered from Neurasthenia for 7 years. Five treatments restored her to complete health.

RHEUMATISM—CONSTIPATION— SLEEPLESSNESS

Sir P. D. P. of Bharnagar, India.—Age 70. Suffered from Rheumatism, Constipation and Sleeplessness. He states that he has been in good health since his second treatment.

LUMBAGO

Mr. A. S.—Age 37, was afflicted for 3 years with Lumbago. After four applications of Endonasal Reflex Therapy, the pains disappeared, and he is able to do his work now without trouble.

BRONCHIAL ASTHMA

Mr. B. G. Y.—Age 49. Sufferer from Bronchial Asthma for 4 years, and unable to sleep. Five treatments were sufficient to restore him to health.

MUSCULAR RHEUMATISM—CONSTIPATION AND SLEEPLESSNESS

Miss C. K.—Age 59. Sufferer from Muscular Rheumatism, Sleeplessness and Constipation for many years. Since the first treatment she sleeps normally, and after the sixth application Rheumatism and Constipation disappeared.

SCIATICA AND BRONCHIAL CATARRH

Sir K. C.—Age 85. Sciatica and Bronchial Catarrh. After three treatments both diseases were cured completely.

STOMACH TROUBLE—NERVOUSNESS

Mr. A. L.—53 years of age. Sufferer from Stomach trouble, Bronchial Catarrh and Nervous Disorders. Five treatments relieved him completely from suffering.

NEURITIS—ASTHMA—CONSTIPATION

Mr. A. W. N.—Age 61. Suffered for 10 years from Neuritis, Asthma and Constipation. After six treatments has no more pain or Constipation, and is breathing normally. His Asthma is also completely cured.

CATARRH—DEAFNESS—HEAD NOISES

Mr. A. G. H.—Catarrh, Deafness of right ear and Head Noises. The Head Noises have not disturbed him since the first treatment. After three more applications his Catarrh disappeared, and his hearing improved satisfactorily.

ASTHMA—DIFFICULT BREATHING

Mr. H. B. M. writes us—"For 27 years I have suffered from Asthma and difficult breathing. I was never one single day free of attacks. Since I commenced your Endonasal Reflex Therapy, I sleep normally, have no more attacks, and my general health has improved so far that I feel 20 years younger. There is no objection to your publishing my testimonial, and I recommend to all sufferers from Asthma your wonderful Endonasal Reflex Therapy."

GENERAL DEBILITY

Mr. A. E.—General Debility through Stomach trouble since childhood. His Stomach trouble disappeared after the third treatment.

BRONCHIAL ASTHMA—RHEUMATISM

Mr. G. R.—Sufferer from Bronchial Asthma and Rheumatism in the Lumbar region. The Asthma since 1914, and Rheumatism since 1927. After four treatments he has had no more attacks, is breathing normally, and the Rheumatism pains have disappeared.

NERVOUS DISORDERS

Mr. H. A.—Age 54. Sufferer from Nervous Disorders. He feels 20 years younger after five treatments, he sleeps normally, his Constipation has disappeared, and he has resumed his work with great pleasure.

SCIATICA

Mr. D. S.—Age 70. Has been unable to walk for a period of 8 months, due to Sciatica on both sides. Three treatments caused complete recovery.

NASAL CATARRH—HEADACHES

Mr. L. S.—Sufferer from Nasal Catarrh and Headaches. He has had three treatments, and since then he has been free from headaches, and his nasal Catarrh has disappeared completely.

DYSPEPSIA—VARICOSE VEINS

Mr. A. N. S.—Sufferer from Nervous Dyspepsia and Varicose Veins. His Dyspepsia was cured after three treatments, and the Varicose Veins disappeared after the sixth treatment.

ARTHRITIS—SLEEPLESSNESS— CONSTIPATION

Miss F. Y.—72 years of age. Sufferer from Rheumatoid Arthritis, Sleeplessness and Constipation. Four treatments restored her to complete health.

NEUROSIS—RHEUMATISM

Mrs. A. V.—Sufferer from Climateric Neurosis and Rheumatism all over. She has regained her complete health and strength after five treatments.

PAIN IN NECK

B. D.—Age 42 years. This patient had suffered from continued pains in the neck, due to which he could not move his head, nor could he remain in bed and sleep.

He came to the Institute to undergo the Reflex Therapy, and after a second application his pains disappeared, and he could move his head without any trouble; he required no further treatment, leaving completely cured.

DEAFNESS AND HEAD NOISES

Miss H. A. Wilson was suffering from Deafness and Head Noises since 1923.

After the first treatment the Head Noises disappeared, and only four applications were necessary to restore her hearing.

CHRONIC RHEUMATISM

The undersigned, born in the year 1841, hereby declares that for the last 30 years he has suffered from Chronic Rheumatism, being unable to walk, sit down, or rise from his chair unaided.

The last few years he has been quite paralytic.

On Tuesday, August 12th, 1930, the director of the Harpman Sanatorium for Reflex Therapy, at 2 p.m., gave him a treatment and immediately he was able to rise without help, and walk quite a distance without any fatigue.

He could also get in and out of an automobile with the greatest ease.

At 4 p.m. of the same day, he received another treatment by this system of Reflex Therapy, and with remarkable results, as in spite of his great age of 89 years, he could then walk with more agility than many persons much younger.

Signed, August 12th, 1930, J. E.,
A. D. H., C. H., E. A., J. C., J. G., E. T.
(All the above, witness this cure.)

DEAFNESS—CONSTIPATION

The undersigned, J. H., a Consular Agent of France, hereby declares that having suffered from deafness for many years, he underwent the Endonasal Reflex Therapy, applied by Mr. Harpman, which was also applied to his wife, Mrs. M. H., who for many years was a victim of terrible rheumatic pains, palpitation of the heart, nervous debility and constipation, and now both of us enjoy perfect health, and offer you this sincere expression of our gratitude.

August 23rd, 1930.

J. H.

INFANTILE PARALYSIS

I, the undersigned, J. F., born in the year 1898, hereby declare that at the age of three months I suffered from a serious illness, and remained paralytic until August 6th, 1930, when I was treated by Mr. Harpman, who applied to me Endonasal Reflex Therapy, and the result was that on August 7th I could walk and move my limbs normally.

On August 8th, the second treatment gave a surprising result, and after a third application of this method, I was sufficiently cured, so as to be able to issue this certificate, declaring that due to that treatment, I count myself amongst the number of normal mortals.

J. F.

Note

WE have treated, during the last five years, hundreds of children suffering from Infantile Paralysis.

Satisfactory results could only be obtained in 20 per cent. of the cases treated, and we consider it our duty to point this out in order that parents whose children are suffering from this affection should not assume that Endonasal Reflex Therapy cures all cases.

It is desirable to make a trial, and if the first application does not result in a favourable reaction, the treatment should be discontinued.

This first application is therefore free of charge, and parents are easily able to judge for themselves whether further applications are desirable.

Examinations are made daily from 10 to 6, and on Saturdays until 1 o'clock.

RHEUMATISM—DEAFNESS—STOMACH PAINS

Mrs. C. M. was a sufferer from three ailments : Rheumatism, Deafness, and Stomach Pains. During 18 months she found no remedy for her ills, until she tried Endonasal Reflex Therapy. Now she feels entirely well, is free from Rheumatic pains and stomach trouble and has regained her normal hearing.

LOST SENSE OF SMELL

Mrs. I. A., 46 years old, had lost all sense of smell, for two years. After the first treatment she stated that the affliction had completely left her and declared that the application had not hurt her in the least.

PARALYSIS IN BOTH LEGS

I had the beginning of Paralysis in both legs and suffered from Nervous Disorder. I am glad to state that after a few treatments of Endonasal Reflex Therapy I feel now very well.—P. C.

RHEUMATISM IN THE NECK AND HEAD NOISES

I suffered for a long time from Rheumatism in the neck and back and Noises in the Head, and certify that a few treatments of Endonasal Reflex Therapy relieved me completely from my sufferings.—E. S.

EXTREME DEBILITY AND SLEEPLESSNESS

Extreme Debility, Nervousness and Sleeplessness were my trouble for many years. Friends recommended me the Endonasal Reflex Therapy treatment and I am glad that I tried this because a few applications restored me to complete health.—G. S.

NOISES IN THE HEAD

After suffering for many years from Noises in the Head and Neuralgia and having tried several treatments without result, I decided to take the Endonasal Reflex Therapy and certify that after a few treatments I was completely cured.—M. R.

BRONCHIAL ASTHMA

I was a victim of violent attacks caused by Bronchial Asthma for 18 years, and thanks to the treatment by Endonasal Reflex Therapy I was absolutely and quickly cured.—L. B.

NERVOUSNESS

I am 64 years old and was suffering for a long time from Decreasing of Hearing, Dizziness, Nervousness and Rheumatism, especially in knees and feet, causing me much difficulty with walking. After a few treatments of Endonasal Reflex Therapy I state with much pleasure that I feel absolutely normal.—J. Duncan.

RHEUMATISM AND STOMACH TROUBLE

I, undersigned, Mr. C. C., have been suffering from Rheumatism and Stomach Trouble and Sleeplessness, and have been completely cured by Endonasal Reflex Therapy, and allow you to make use of this statement.—Signed, C. C.

HEADACHES

J. T. has been suffering from Constant Headaches, Dizziness, Great Weakness and Loss of Appetite from early childhood. She has taken three treatments, since then she has been free of headaches and dizziness, eats with normal appetite, does not suffer any more with sleeplessness and is now indefatigable.

RHEUMATOID ARTHRITIS

Mr. B. has been suffering from Rheumatoid Arthritis in his knees for the past 3 years to such an extent that he has been unable to do his work most of the time. After three treatments the pain and stiffness completely disappeared and he is now able to walk and perform his work without the slightest pain.

NERVOUS TROUBLE

Mr. E. M. suffered for the past 17 years from Nervous Trouble, Deafness and also Noises in both Ears. He has tried internal and external medicines without any result. The first treatment of Endonasal Reflex Therapy improved immediately the deafness, and after three treatments he was able to hear without any force ; the noises disappeared completely, and this being the cause of his nervousness, his nervous system is now normal, he sleeps well, has a good appetite and does his work with pleasure.

SCIATICA ON BOTH SIDES

Mr. C. had been unable to walk for a period of several months, due to Sciatica on both sides. One application, lasting hardly three minutes, brought his complete recovery.

DECREASING HEARING

I am a stenographer and nearly lost my job because of Decreasing of my Hearing. I tried several treatments without practical result, but after a few of Endonasal Reflex Therapy I am now able to do my work without difficulty.—L. M.

CHRONIC RHEUMATISM

- T. V.—Age 48 years. This patient, sufferer from Chronic Rheumatism, and since 1923 has been unable to work : by recommendation of Mrs. H. G., residing in the same locality (and cured at our Institute), he came to us for treatment, and not in vain, as a week later, after undergoing seven applications of our method, he left completely cured of his ailment.

RHEUMATISM

- D. P.—Age 38 years. Rheumatic pains in all the joints, from youth onwards. On March 12th he came here, by recommendation of a friend who was treated by us. On March 16th he left perfectly cured.

RHEUMATISM IN JOINTS

- R. Y. A.—Age 13 years. From July, 1929, this patient suffered from pains in the knees, ankles and elbows. After four treatments his pains had disappeared, and he could again move his legs and arms without any trouble whatever.

HEMORRHAGE ON THE BRAIN

- P. G.—This patient suffered from a slight Hemorrhage on the brain, 3 years ago. For the last 4 years, he has suffered from pains in the right ankle, which little by little went up the leg, and subsequently attacked also his left arm, which he could only raise with certain difficulty. When walking, he becomes very agitated, and sighs a deal ; his memory is bad ; to-day he suffers from paralysis of the left side of the face.

The first treatment produced a radical change in his system ; he left the Institute without the aid of crutches or sticks, walking like any other normal individual, which was impossible for him for the last 4 years.

He underwent treatment for nine days, for three minutes daily.

RHEUMATISM AND DIABETES

Marchioness E. de R.—At the end of last November I commenced to be treated at Harpman's Institute for Rheumatism and Diabetes, and am now pleased to be able to declare that I am completely cured of these ailments, and take the opportunity of thanking the Directors of that Institution for their kind attention to me.

SCIATICA

J. A. C.—I fulfil my duty when I inform you of my gratitude to you for the application of the Endonasal Reflex Therapy, as I never could believe that the Traumatic Sciatica, from which I have suffered for the last 6 years, could have been cured so completely, and my Muscular Atrophy could so entirely disappear, as it has done.

As a proof of my gratitude, allow me to express my justified pleasure and surprise.

LUMBAGO AND ULCERS

A. P. L.—Age 65 years. This was a case of Lumbago, with Ulcers on the right leg, which, after different remedies for 8 years, still were uncured.

After five applications of our treatment, the Ulcers had completely disappeared, leaving some cicatrices, almost imperceptible.

His attack of Lumbago, which had prevented him from working, had also vanished, and he left the Institute as a perfect, healthy man.

WEAKNESS IN THE LEGS

H. E.—Age 44 years. Eleven years ago, she commenced to suffer from Weak Legs, with difficulty in walking. When walking, she occasionally crosses one foot on the other, and drags her feet ; her legs are swollen, with edema : once seated, she finds it a matter of difficulty to raise her legs.

After three treatments her pains had vanished, and she was completely cured after seven applications.

RHEUMATISM

R. S.—Six months ago this patient commenced to suffer pains in the left shoulder, elbow, hand, and also in the left foot.

This patient had his first treatment, returning the next day, enquiring from us whether he should come again, as all pain had disappeared ; he had two more treatments and he left the Institute absolutely in perfect health.

ATROPHY AND HYPERTROPHY

H. G.—Nine months ago, this patient had a fall ; subsequently she felt no pain at all, but 4 months later she commenced to have pains in her right leg, which troubled her considerably when walking, although when lying down she felt no pain at all.

Present state : Her right hip is slightly atrophied, but gives her no pain ; at the top of her leg, and inside the tibia, there is a slight hypertrophy, and on pressure, she feels pain. She is unable to lift her leg. The physician who attended her had advised the amputation of the leg, but before deciding, she came to our Institute. After a thorough examination, we arrived at the opinion that she was not suffering from Tuberculosis, and for six days we applied our treatment, with an absolutely satisfactory result.

Afterwards this patient sent us Mrs. D. P. and T. V., residing in the same locality, suffering from Chronic Rheumatism, and asked them to express her gratitude to us for having saved her leg, stating that her health was again normal.

Surgical Department

Minor surgical operations are undertaken by a skilled surgeon.

The technique is strictly aseptic and pain is avoided by the use of local anæsthetics.

Suitable cases are such as cysts, skin tumours, disfigurements, dislocations, deformities of hands and feet, varicose veins, hæmorrhoids, etc.

Consultations and advice in surgical cases free of charge.

A Letter out of Thousands

Harpman's Institute,
1, Baker Street, W.1.

15th April, 1932.

Dear Sirs,

I think I may claim to be one of your most thankful patients, as after suffering for three months from paralysis of my right side and being unable to move my right arm at all, I am now completely cured. I was constantly under treatment without any result and I was advised by a friend of mine to try Endonasal Reflex Therapy. After my very first treatment I was freed from the continuous and very severe pain that I had suffered for so many weeks, and from that time I have been able to sleep my usual eight hours every night without waking at intervals during the night. After five treatments I was able to use my arm again for all purposes, shaving, writing, etc., and have been completely cured of all pain. All my friends agree that you have worked a miracle in my case. I am most grateful to you and I wish you every success.

Yours sincerely,

(Signed) A. LINDEMERE,

Major.

(Publishing of full name allowed.)

From the 4th to the 9th of April, 1932, the following patients were treated with satisfactory results :—

GENERAL C. B. R.	..	Sufferer from Neuritis.
LIEUT.-COL. A. R. L.	..	Paralysis in right arm.
LIEUT.-COL. I. M.	..	General weakness and Haemorrhoids.
LIEUT.-COL. B. D.	..	Sciatica in both legs.
LIEUT.-COL. C. M.	..	Chronic Catarrh and Head Noises.
MAJOR A. L.	..	Muscular Rheumatism.
MAJOR B. M.	..	Hay Fever.
MR. A. B., DR. OF MUS.	..	Lumbago and Bronchial Catarrh.
SIR P. A.	..	Nervous Dyspepsia and Nasal Catarrh.
GEN.-BRIG. SIR C. K.	..	Sciatica and Muscular Rheumatism.
LADY E. T.	..	Chronic Bronchial Asthma.
LADY R. B.	..	Spasmodic Catarrh.
MISS G. V.	..	Blood pressure 255 reduced to 175.
MISS T. N.	..	Arthritis in legs and arms.
MR. D. R.	..	Deafness and Head Noises.
MR. I. M. T.	..	Chronic Nasal Catarrh and Rheumatism.
MISS K. L.	..	Arthritis in legs and arms.
MISS M. E.	..	Lumbago.
MISS I. D.	..	Muscular Aches.
MR. D. D.	..	Creeping Paralysis.
MRS. J. T. M.	..	Paralysis Agitans (Parkinson's Disease).
THE HON. C. A.	..	Deafness and Head Noises.
MR. S. A.	..	Head Noises.
MISS V. B...	..	Rheumatism (since 12 years of age).
MR. M. B.	..	Chronic Catarrh.
MR. C. R. M.	..	Congenital Asthma.
MR. B. N.	..	Bronchial Asthma.
MR. J. O.	..	Nervous Weakness.
MISS R. L. S.	..	Indigestion and Nasal Catarrh.
MISS B. N.	..	Nervous Dyspepsia.
MISS B. A...	..	Rheumatism over 5 years.
MISS C. B...	..	Headaches (constant).
MR. W. C. C.	..	Asthma since 1912.
MRS. B. D.	..	Arthritis in arms and legs.
MR. C. W. D.	..	Deafness (complete) since 1924.
MR. W. E.	..	Head Noises and Giddiness.
MISS E. F.	..	Hemiplegia.
MISS MACH.	..	Rheumatism and General Weakness.
MISS E. K.	..	Arthritis.
MISS S. A. S.	..	Neuritis and Headaches.
MRS. M. A. S.	..	Irregular Action of Heart.
MAJOR I. S.	..	Lumbago.

THE DISEASES WHICH HAVE RESPONDED TO REFLEX-THERAPY

ARE

Acquired Myopia—Alveolodental Pyorrhea—Anæmia—Arrested development—Arthritis—Articular expansion and pains—Asthma—Chorea—Constipation or Costiveness—Cystitis—Diminution in auditive acuteness—Dysmenorrhea—Epilepsy—Facial Paralysis—General Weakness—Gout—Hæmorrhoids (piles)—Hayfever—Headaches—Head Noises—Heart Trouble—Hemiplegia—Insomnia—Irregular Bloodpressure—Irritability of Character—Lachrymal Catarrh—Locomotor Ataxy—Lumbago—Malnutrition—Megrim—Muscular Atrophy—Nervous Disorders—Neuralgia of the Trigeminal Nerve—Neurasthenia—Neurosis—Paralysis (without lesion)—Paraplegia—Remnants of Infantile Paralysis—Rheumatism generally—Rhinitis—Rickets—Sciatica—Skin trouble—Spasm or Cramps—Spinal Curvature—Temporomaxillary Trismus—Traumatism (pains)—Urticaria—Varicose Veins.

SLEEPLESSNESS

(Insomnia)

We especially want to point out to all

Sufferers from Sleeplessness

(either as a sole complaint or caused by other illnesses)
that in all cases, and without exception, a few applications
of

ENDONASAL REFLEX THERAPY

will give a normal sleep

A Good Rest means Energy
